

**COUNTY OF LOS ANGELES – DEPARTMENT OF MENTAL HEALTH
CHILDREN’S SYSTEM OF CARE**

TRANSFER OPPORTUNITY

RESTRICTED TO DEPARTMENT OF MENTAL HEALTH EMPLOYEES

**Supervising Psychologist
FAMILY AND COMMUNITY PARTNERSHIPS**

Family and Community Partnerships (FCP) is seeking a highly qualified candidate to assume responsibility for development, implementation, and monitoring of selected Countywide programs related to the Mental Health Services Act (MHSA) Prevention and Early Intervention (PEI) plans for children as well as School-based and Birth to Five mental health and family support services. Responsibilities also include the administrative supervision of staff and consultation with program partners on the countywide First 5LA PCIT training program.

ESSENTIAL JOB DUTIES:

- Supervises the Leads for Countywide implementation of selected Children’s Evidence-Based Programs (EBPs).
- Oversees the coordination of training for program staff of directly operated and contract providers on the implementation of selected EBPs.
- Assists Service Area administrative staff and providers with selected PEI EBP program development, implementation, and monitoring.
- Assists in the development of related policies and procedures.
- Assists in the development of standardized data collection systems for performance measures and client/program outcomes for the purpose of evaluating MHSA PEI program effectiveness.
- Oversees the corresponding reports, data reports, and program evaluations for First 5 LA PCIT.
- Supports Service Area (SA) Birth to Five and School-based Mental Health Service Coordinators and their respective interagency collaboratives in enhancing community capacity to address the mental health needs of children and their families (includes participation in bi-monthly Coordinator meetings and selected SA Collaborative meetings).
- Conducts research as needed and regularly reviews current information regarding state/local plans, policies, best/promising practices, resources, and key developments in the field of children’s mental health, with a focus on prevention and early intervention.
- Responds to periodic requests for information and referrals, consultation, and program/resource development relevant to children’s mental health and family support services

- Develops and maintains effective interdepartmental and public relations with all relevant stakeholders to enhance system-wide communication, collaboration, and coordination of care for children and families.
- Supports FCP staff on other projects and activities as needed (including PEI Early Start programs).

DESIRABLE QUALIFICATIONS:

- Clinical experience working with children (including birth to five) and families.
- Experience in providing training and consultation.
- Familiarity with Evidence-Based Practices and outcomes data collection and analysis.
- Experience in providing school or community-based mental health services, consultation, and participation in related program development activities.
- Experience participating as a member of interdisciplinary teams and interdepartmental and/or interagency networks, collaboratives, workgroups.
- Ability to produce reports that may include data analyses and recommendations.
- Possession of excellent communication skills, both verbal and written.
- Possession of excellent organizational and interpersonal skills.
- Ability to establish, implement, and achieve both local program and Department-wide goals and objectives.
- Ability and willingness to travel throughout Los Angeles County in the course of performing the duties of this position.

Interested individuals who are currently holding the title of Supervising Psychologist are encouraged to send a detailed resume and last two Performance Evaluations no later than **January 16, 2015** to:

Sam Chan, PhD
